

“They are the best, the only Meal Replacement Shakes you will ever need.”

Dr. Bill Wheeler, Formulator of WellnessPro
Balanced Nutrition for Men and Women

	Features	WellnessPro® Balanced Nutrition Meal Replacement for Men and Women	Average Powder Drink Mix
1.	Gender Specificity	Superior meal replacement is created separately for men and women to strengthen health and control weight. Recognizes gender specifics and meets individual needs by supplying the appropriate daily amounts of protein, nutrients, and vitamins.	—
2.	Protein Complex	<p>Proprietary WellnessPro® Complex of "Fast and Slow" Proteins includes five (5) protein sources (the protein concentrate, calcium casein ate, milk protein isolate, soy protein isolate, soy extract).</p> <ul style="list-style-type: none"> ▪ Supplies optimal daily amount of proteins ▪ Helps reduce fat and increase body tone ▪ Helps strengthen muscle tissue ▪ Helps prevent premature aging ▪ Helps regulate blood sugar level <p>Unique combination of Complex components ensures optimal concentration of protein in a body throughout the day – while the protein acts fast and is assimilated fast, soy protein is assimilated at a slower pace and acts later.</p>	—
3.	Amount of Protein (per serving)	<p>One serving provides 20g of the essential and fully digestible proteins for men</p> <p>One serving provides 15g of the essential and fully digestible proteins for women.</p>	
4.	Enzyme Complex Aminogen®	Patented Enzyme Complex Aminogen® accelerates the assimilation of protein amino acids and maximizes benefits of protein intake.	+/-
5.	Enzyme Complex Carbogen®	Patented Enzymes Complex Carbogen® accelerates breakdown of dietary carbohydrates and effectively controls carbohydrate metabolism while supporting a healthy weight management program.	—
6.	Calcium HeptaCal™	<p>Patented complex of Calcium sources/ HeptaCal™ , is a proprietary combination of seven (7) different sources of calcium (calcium carbonate, calcium citrate, calcium gluconate, calcium aspartate, calcium amino acid chelate and calcium lactate).</p> <ul style="list-style-type: none"> ▪ Maintains healthy bone structure ▪ Reduces the risk of bone tissue density loss 	—

		<ul style="list-style-type: none"> ▪ Helps regulate nerve impulse and conductivity ▪ Supports normal muscle function ▪ Alleviates the signs of PMS ▪ Maintains normal function of the large intestine ▪ The Recommended Daily Intake of Calcium is 1,000 mg <p>HeptaCal™ uniquely solves calcium absorption issues that are associated with a single source calcium formulation and is the most scientifically sophisticated source of calcium offered by the market today.</p>	
7.	<p>Chromium (PentaChrom™)</p>	<p>Patented complex of Chromium sources/PentaChrom™, is a proprietary combination of five (5) different chromium sources (chromium polynicotinate, chromium picolinate, chromium aspartate, chromium nicotinate and chromium amino acid chelate). The sources are balanced in amounts and ratios for a specific ionic dissociation constant that optimizes gastrointestinal chromium absorption.</p> <ul style="list-style-type: none"> ▪ Supports effective assimilation of proteins, fats and carbohydrates ▪ Helps regulate sugar and glucose content in blood* ▪ Controls hunger ▪ The Recommended Daily Intake of Chromium is 120 mcg <p>PentaChrom™ is the most scientifically sophisticated source of chromium offered by the market today.</p> <ul style="list-style-type: none"> • Chromium shortage may lead to a reduced ability of assimilating glucose, an increase of the sugar content in blood and insulin tolerance. 	—
8.	<p>Magnesium (QuadraMag™)</p>	<p>Patented complex of Magnesium sources/QuadraMag™ is a proprietary combination of four (4) different sources of magnesium designed to optimize magnesium absorption under all gastrointestinal conditions.</p> <ul style="list-style-type: none"> ▪ Supports nerve and muscle conductivity ▪ Helps regulate osmotic pressure ▪ Promotes accelerated energy metabolism ▪ Helps maintain healthy bone structure 	—

		<ul style="list-style-type: none"> Helps regulate digestion The Recommended Daily Intake Magnesium is 400 mg <p>QuadraMag™ is the most scientifically sophisticated source of magnesium offered by the market today.</p>	
9.	Phytonutrient Complex	<p>Contains WellnessPro® Phytonutrient Complex is an exclusive combination of fruits, vegetables and herbs that includes alfalfa, tomato extract, broccoli extract, spinach extract, apple extract, pineapple extract, papaya extract, orange extract, strawberry extract and cranberry extract.</p> <ul style="list-style-type: none"> Satisfies daily needs in fruit, vegetables and micronutrients Promotes healthy digestion Accelerates cell metabolism 	–
10.	Vitamins and Minerals Complex	<p>Contains Exclusive WellnessPro® Complex of vitamins, minerals and antioxidants that includes vitamin A, vitamin C, vitamin D, vitamin E, thiamine, riboflavin, niacin, vitamin B6, folic acid, vitamin B12, biotin, pantothenic acid, phosphorus, iodine, magnesium, zinc, selenium, copper, manganese, chromium, molybdenum and iron*.</p> <ul style="list-style-type: none"> Provides key nutrients for a daily healthy diet <p>* Iron is included in the WellnessPro™ for Women formula only. WellnessPro™ for Men does not contain iron, as excessive iron in a man's body may increase the risk of cardiovascular diseases.</p>	–
11.	Necessity of additional supplements	Replace two meals a day with tasty, refreshing and nutritious shake – and you won't need any additional supplements.	May need additional supplements +
12.	Genetically modified sources	Does not use genetically modified sources	May use genetically modified sources
13.	Ecologically clean components	Uses only 100% natural and ecologically clean components	–
14.	Calories	130 calories	–
15.	Sweeteners	<p>Contains Sucralose **</p> <p>Sucralose is made from sugar through a multi-step, patented manufacturing process. This sweetener has no calories, yet is 600 times sweeter than sucrose.</p> <p>Sucralose is not recognized by the body as a carbohydrate and has no effect on blood glucose control or insulin response. Sucralose is</p>	Other sweeteners

		safe for people with diabetes. FDA approved.	
16.	Aspartame	Does not contain aspartame	
17.	Taste Complex	Has delicious, creamy taste to it. Can be prepared even with cold water.	Have aftertaste. To correct it, companies recommend adding some fruits, berries, syrups.
18.	Manufacturing Standards/ Quality Control	<p>Manufacturing</p> <p>Meets GMP (Good Manufacturing Practices) standards</p> <p>Meets NNFA (National Nutrition al Food Association) standards</p> <p>Meets USP/NF (United States Pharmacopoeia /National Formulary) standards</p> <p>All WellnessPro™ products are tested twice – first at the ingredient level, then as a final product – in order to maintain consistency and quality.</p>	
19.	Technology	<p>Uses the latest cold processing technologies to preserve the nutritive materials of the ingredients</p> <p>Uses the latest chelate technologies to provide a better assimilation of nutrients at the cellular level</p>	–
20.	Country of Origin	Made in USA	-
21.	International Expertise	<p>Balanced Nutrition WellnessPro™ has been designed by the Staff Nutritionist of the President of the United States and the United States Olympic Team, international nutrition expert- Professor William E. Wheeler.</p> <p>Professor William E. Wheeler is a honorary member of the American Dietetic Association, American Institute of Nutrition, American University of Sports Medicine, the American Association of the Diabetes as well as the Capital University of Integrative Medicine, Washington, DC.</p>	–

** Sucralose is safe for use as a food ingredient by the general population, including children and women who are pregnant or breast-feeding. It is also suitable for people with diabetes, because it does not affect blood glucose or insulin levels.

Numerous studies show that sucralose is not recognized by the body as a carbohydrate and has no effect on blood glucose control or insulin response. These studies included high-dose prolonged-use studies in normal individuals and in persons with diabetes. The FDA has concluded that the overall data on sucralose supports its safety for the general population, including people with diabetes. Sucralose is safe for people with diabetes.
